The physical activity/sport activity is combined with learning a foreign language. For example: Nordic walking for young people, during the activity participants can speak foreign language e.g. English under supervision of the trainer. Walking in the forest, children under the supervision of a teacher go to the forest and learn about trees, animals in a foreign language.

Category: Sports
Age target group: 16 and more
Language(s) taught/learned: All
Context language use: L2, FL
Language competence: Speaking, Interaction, Listening

This outdoor activity combines sport/physical activity with learning a foreign language. It is important to give participants a feeling that it is not only a language course, but also a nice conversation or language exercise. This activity can be very good for the learners with migrant background, who learn a second language or community language.
